SUBJECT INDEX

Aldosterone
effect of angiotensin II, atrial natriuretic factor and guanabenz on, biosynthesis, 575
identification of, metabolites formed by A6 cells, 657
sphingosine inhibits angiotensin-stimulated, biosynthesis, 475
Aldosteronoma
mitochondrial *P*-450 activities in, tissues, 533
Androgen(s)
metabolism by hepatic and renal tissues of the fetal Rhesus monkey, 513
Antiandrogen(s)
evaluation of a peripherally selective, (Casodex) as a tool for studying the relationship between testosterone and spermatogenesis in the rat, 367
Antiestrogen(s)
effects of, versus antiprogestin on transformed and non-transformed steroid receptors, 197
Aromatase
in the human choriocarcinoma JEG-3, 415
Aromatase inhibitors
19-(ethyldithio)-androst-4-ene-3,17-dione (ORG 30958): a potent, *in vivo*, 181
R 76 713 an, in cultured cells and in tumors grown in nude mice, 415

Brain
effect of ovariectomy and steroid replacement on $GABA_A$ receptor binding in female rat, 141
uptake of erythrocyte-associated component of blood testosterone and corticosterone in, of rat, 383
Breast cancer cells
influence of luteinizing hormone-releasing hormone agonists on, of human, 119
MCF-7, effect of estradiol esters on DNA synthesis of, 17
multiple steroid metabolic pathways in ZR-75-1 human, 155

Catecholamines
a potential role for, in the development and progression of carcinogen-induced mammary tumors, 307
Catechol estrogens
morphological effects of the, on rat epididymal epithelia, 717
Cholesterol esterase
crystallization and preliminary diffraction analysis of, from *Candida cylindracea*, 663
Corticosteroid(s)
measurement of 4 urinary C-18 oxygenated, by stable isotope dilution mass fragmentography, 59
side chain oxidations, 629
Corticosterone
effect of, treatment on energy metabolism in rat liver mitochondria, 587
uptake of, into isolated rat liver cells, 721
Cortisol
effect of, on testosterone production by immature pig Leydig cells, 205
production rate of, in two sisters with 17α-hydroxylase deficiency, 489
synthesis of a deuterium-labeled, for the study of its rate of 11β-hydroxy dehydrogenation in man, 351
Cytochrome *P*-450
catalytic properties of, from bovine and porcine adrenocortical mitochondria, 727
comparison of, species which catalyze the hydroxylations of the aromatic ring of estradiol and estradiol-17-sulfate, 737
effect on steroid metabolism in male sheep liver, 611
mitochondrial, activities in aldosteronoma tissues, 533

Dantrolene
inhibition of adrenal steroidogenesis by, 703

Dehydroepiandrosterone
inhibition of carbamoyl phosphate synthetase—I by dietary, 599
16-Dehydroprogesterone reductase
characteristics of, in cell extracts of the intestinal anaerobe *Eubacterium* sp. strain 144, 257
Dexamethasone
effect of, on uterine cell death, 111
Dihydrotestosterone (DHT)
formation and degradation in cultured human skin fibroblasts, 227
8α,25-Dihydroxy-3-oxoneocholecalciferol
synthesis and function of, in liver, 745
1α,25-Dihydroxyvitamin D_3
effect of three A-ring analogs of, on 25-OH-D_3-1α-hydroxylase in isolated mitochondria and on 25-hydroxyvitamin D_3 metabolism in cultured kidney cells, 775

Endometrium
metabolism of equilin in normal and malignant human, 433
Equilin
metabolism of, in normal and malignant human endometrium, 433
Estradiol
affects the expression of guinea pig blood leucocyte MHC antigens, 695
enzyme immunoassay for plasma, using a monoclonal antibody, 339
identification and tissue localization of an eosinophil 17 kDa protein accumulating in rat uterus upon, treatment, 321
synthesis and biological activity of 17α-alkynylamide derivatives of, 759
Estradiol esters
effect on DNA synthesis in MCF-7 cells, 17
Estriol fatty acid esters
estrogenic action of, 399
Estrogen response element
human estrogen receptor introduced into the *Xenopus oocyte* represses expression from an artificial frog, 423
Estrogen(s)
multiple, binding sites in the uterus, 35
receptor(s)
dynamics of, in C57BL/6J mice, 127
effects of various protease inhibitors on, steroid binding, 569
evidence for involvement of tyrosine in estradiol binding by, in rat uterus, 135
sulfotransferase and 17β-hydroxysteroid dehydrogenase activities in guinea-pig chorion through gestation, 241
Estrous cycle
indole and porphyrin content of the Syrian hamster Harderian glands during the proestrous and estrous phases of the, 101
Ethynyloestradiol
effect of progestogens, gestodene, 3-keto desogestrel, levonorgestrel, norethisterone and norgestimate on the oxidation of, by human liver microsomes, 219
intrasubject variability in the pharmacokinetics of, 733

Fibronectin
effect of, on the response to FSH in cultured bovine granulosa cells, 189
Follicular fluid
steroid levels of, in relation to oocyte maturity and *in vitro* fertilization, 83

Gene(s)
functional abnormality of glucocorticoid receptor in Shionogi carcinoma 115 cells as evidenced by, transfer experiments, 593
growth hormone, effect of glucocorticoids on, in rat, 1
in vivo and *in vitro* protein DNA interactions at the distal oestrogen response element of the chicken vitellogenin, 275
molecular and endocrine characterization of a mutation involving a recombination between the steroid 21-hydroxylase functional, and pseudogene, 677

Glucocorticoid(s)
functional, inducible enhancer activity in the 5′-flanking sequences of the rat growth hormone gene, 1
receptor(s)
binding affinity of loteprednol etabonate: a new type of, 149
suppress the lipopolysaccharide-induced increase in putrescine and N^1-acetylspermidine in mouse liver, 781
Gonadotropin-releasing hormone
stimulatory effects of estrogen on, -induced phosphoinositide turnover in granulosa cells, 583

Human follicular fluid
determination of 11β-hydroxyandrostenedione in, 389
Human mononuclear leucocytes
19 hydroxyandrostenedione does not modulate [^{3}H]aldosterone binding to, 331
18-Hydroxycorticosterone
and aldosterone ratio in the saliva of man, 377
11β-Hydroxylase
induction of steroidal, of *Cochliobolus lunatus*, 117
21-Hydroxylase
activity in equine ovarian follicles evidenced by isotope dilution-mass spectrometry, 165
molecular and endocrine characterization of a mutation involving a recombination between the, functional gene and pseudogene, 677
19-Hydroxylated steroids
new metabolites produced by the Y1 adrenal cell line, 483
3α-Hydroxy-4-pregnen-20-one
radioimmunoassay of, 505
11β-Hydroxysteroid dehydrogenase
renal, activity: effects of age, sex and altered hormonal status, 265
17β-Hydroxysteroid dehydrogenase
activity in guinea-pig chorion through gestation, 241
20β-Hydroxysteroid dehydrogenase
of neonatal pig testis, 787
25-Hydroxyvitamin D_3
metabolism of, to 24-25-dihydroxyvitamin D_3 by blood derived macrophages, 301

Insulin
effect of, on the response to FSH in cultured bovine granulosa cells, 189

Ketoconazole
effect of, on human ovarian C-17,20-desmolase and aromatase, 213

Leukemia
glucocorticoid receptor mRNA in human, cells, 561
Leydig cells
effect of cortisol on testosterone production by, of immature pig, 205
evidence for the presence of androgen receptor in human, 79
Luteinizing hormone-releasing hormone agonists
influence of, on human mammary carcinoma cell lines, 119

Mammary tumor
a potential role for catecholamines in the development and progression of carcinogen-induced, 307
Medroxyprogesterone acetate
and the nuclear uptake of testosterone and its metabolites by brain, pituitary gland and genital tract in male cynomolgus monkeys, 49
Metandienone
metabolism of, in man, 441
Monoclonal antibody
enzyme immunoassay for plasma estradiol using a, 339

mRNA
cortivazol mediated induction of glucocorticoid receptor, in wild-type and dexamethasone resistant human leukemic (CEM) cells, 561

Norethisterone
antigonadotropic mechanism of action of, 89
Norgestimate
metabolism of, by human gastrointestinal mucosa and liver microsomes *in vitro*, 497

Phosphorylation
in vitro, and hormone binding activation of the synthetic wild type human estradiol receptor, 407
Phytoestrogens
the estrogenic activity of, in the Siberian sturgeon *Acipenser baeri*, 293
Progesterone
binding to uteroglobin by site-directed mutagenesis, 27
gossypolone suppresses, synthesis in bovine luteal cells, 709
hydroxylation of, by extracts of *Phycomyces blakesleeanus*, 249
receptor
murine, exists predominantly as the 83-kilodalton 'A' form, 285
studies of conformation and interaction of the cyclohexenone and acetyl group of, with liposomes, 173
Progesterone antagonists
a bioassay for the evaluation of antiproliferative potencies of, 359
Prostate
androgen receptor in streptozotocin-induced diabetic rats, 67

Receptor(s)
androgen(s)
in human Leydig cells, 79
prostatic, in streptozotocin-induced diabetic rats, 67
estrogen(s)
dynamics of, in C57BL/6J mice, 127
effects of various serine protease inhibitors on, steroid binding, 569
evidence for involvement of tyrosine in estradiol binding by, in rat uterus, 135
human, introduced into the *Xenopus* oocyte, 423
in vitro phosphorylation and hormone binding activation of the wild type human, 407
multiple, binding sites in the uterus, 35
glucocorticoid(s)
binding affinity of loteprednol etabonate: a new type of, 149
functional abnormality of, in Shionogi carcinoma 115 cells, 593
mRNA of, in human leukemic (CEM) cells, 561
progesterone
murine, exists predominantly as the 83-kilodalton 'A' form, 285
5α-Reductase
partial purification of human prostatis 73

Somatostatin
evidence that endogenous, is involved in the control of the growth and steroidogenic capacity of zone glomerulosa, 469
16-Ene-C_{19}-steroid(s)
inhibitory effect of some imidazole antifungal compounds on the synthesis of, catalyzed by pig testicular microsomes, 95
Steroid(s)
and depression (a review), 537
biosynthesis of testicular, in the immature, adult and senescent guinea-pig, 233
plasma C-21, in conscious pregnant and non-pregnant rabbits with chronic catheterization of femoral artery, and portal and hepatic veins, 753
receptor(s)
effects of antiestrogen versus antiprogestin on transformed and non-transformed, 197
studies on anabolic, in human, 639

Testosterone
regulation of, production in the fetal mouse gonad *in vitro*, 523
testicular, synthesis *in vitro* in the human, 465
Thyroid hormone receptor $\beta 1$
high level expression of functional full length human, in insect cells using a recombinant baculovirus, 667
Transcortin
in rat kidney: subcellular distribution of transcortin-synthesizing polyribosomes, 43
Transforming growth factor alpha (TGF-α)
role of, in basal and hormone stimulated growth by estradiol, prolactin and progesterone in human and rat mammary tumor cells, 687

Uterine epithelial cells
proliferation of guinea-pig, in serum-free culture conditions, 345
Uteroglobin
identification of residues essential for progesterone binding to, 27

Vittelogenin
in vivo and *in vitro* protein DNA interactions at the distal oestrogen response element of the chicken, gene, 275

We wish to thank the following persons for their kind collaboration in reviewing papers for *The Journal of Steroid Biochemistry and Molecular Biology*: Drs J. Bjorkhem, Stockholm, Sweden; P. J. Butterworth, London, England; R. Clarke, Washington, U.S.A.; K. Cullen, Washington, U.S.A.; S. Fawell, London, England; R. A. Hawkins, Edinburgh, Scotland; J. W. Honour, London, England; K. A. Hutchison, Ann Arbor, U.S.A.; R. Kohanski, New York, U.S.A.; J. M. Kokontis, Chicago, U.S.A.; M. B. Levitz, New York, U.S.A.; E. Musgrove, Darlinghurst, Australia; C. J. Newton, London, England; R. E. Oakey, London, England; T. Ojasoo, Paris, France; A. Purohit, London, England; M. J. Reed, London, England; M. Ritta, Buenos Aires, Argentina; J. Saez, Lyon, France; E. B. Thompson, Galveston, U.S.A.; V. Luu-The, Ste-Foy, Canada.
